

Achieving Change Together: Making the most of findings from ARC Wessex research

Thursday 23rd June 2022

9.30am – 1.30pm (lunch included)

Ageas Bowl, Southampton, SO30 3XH

Why come?

ARC Wessex pulls together some of the best, evaluated research for the health and care of people in our region. This event will look at how we can bring that research into practice in our health and care systems.

Who is it for?

- Those involved in developing, commissioning and implementing new models of care and approaches to prevention and public health
- Patient and public contributors
- Those who hold the brief for research and innovation in your organisation, network or community
- Health and care professionals involved in developing and delivering services for ageing and dementia, social care, public health and multimorbidity.
- Those who are undertaking research as part of a research study or through a fellowship with an interest in the areas of focus of the ARC research portfolio, namely: ageing and dementia, workforce planning/deployment/wellbeing, digital interventions and big data, public health, social care, long term conditions.
- Those whose role involves the facilitation and support of research
- Academic staff

On the day:

- 09:30 – Registration and networking
- 10:00 – Workshop 1 on research implementation
- 11:00 – Refreshment Break
- 11:30 – Workshop 2 on research implementation
- 12:30 – Lunch and networking opportunity

There will be 4 workshops running in parallel, each based on each of the ARC Wessex research themes:

- Ageing and Dementia
- Healthy Communities
- Long Term Conditions
- Workforce and Health Systems

Each workshop will run twice, so you will have the opportunity to attend 2 different sessions.
